[LEARN MORE](#)

Lifeloc Technologies is a US manufacturer of fuel cell based breath alcohol testing devices for professional use. We are a public company established in 1983 and are headquartered in Wheat Ridge, Colorado. Our breathalyzers are recognized for their precision, ease of use and reliability. We offer a full range of PBT and EBT models incorporating our patented alcohol detection and sensing algorithms, and our platinum fuel cell technology. These are widely used by the workplace, law enforcement, corrections, and schools.

We support our workplace customers through a nationwide network of industry accredited and Lifeloc certified drug and alcohol training consultants.

Our products are also recognized and distributed globally through a comprehensive international distributor network of specialists who offer local consultation, service and support.

Lifeloc exists to make the world safer from the harmful effects of alcohol and drug abuse.

Certifications & Organizations

Lifeloc's professional breath alcohol testers are tested and approved by the National Highway Traffic Safety Administration (**NHTSA**), a division of the U.S. Department of Transportation (**DOT**)

Lifeloc is an active member of several workplace organizations including Substance Abuse Program Administrators Association (**SAPAA**), National Drug & Alcohol Screening Association (**NDASA**), and Drug and Alcohol Testing Industry Association (**DATIA**).

Lifeloc's PBTs have been approved by many state forensic labs which has resulted in special state contracts for state and local law enforcement.

We operate under the **ISO 9001:2015** Quality System and undergo private internal audits multiple times per year to ensure perfect operating condition.

In 2012, Lifeloc received the **Colorado Governor's Award for Excellence in Exporting**

Lifeloc was also recognized as a **Top 50 Colorado Company to Watch** in 2011.

Reputation, Reliability and Service Set Us Apart!

SENTINEL™ Breath Alcohol Entry System

The SENTINEL alcohol screening system enables high-volume "zero tolerance" screening of employees, contractors and visitors in safety sensitive industries such as Mining, Construction and Oil & Gas.

The SENTINEL entry-point breath alcohol testing system is fast, totally automated and completely non-invasive. Tests are triggered automatically when the subject blows. No mouthpieces or straws are required.

Wireless Tri-fold Bluetooth Keyboard

Do you use the data entry fields on your PX6.0BT EBT to enter donor information prior to a breath alcohol test? There's a keyboard for that!

Lifeloc offers a wireless tri-fold keyboard as part of the PX6.0BT DMS Kit, or as an add-on accessory, to provide you with the ability to quickly enter data into your PX6.0BT using a Bluetooth connection. The keyboard is rechargeable and stores easily into the carrying case
