

Lifeloc Technologies Names New CEO

Press Release for Immediate Distribution

DENVER, COLORADO
(PRWEB) JANUARY 20, 2016

Lifeloc Technologies (OTC:LCTC), a leading manufacturer and exporter of professional breath alcohol testers for use by Law Enforcement, Corrections,

Schools and the Workplace, announced today that its Board of Directors has named Dr. Wayne Willkomm to the position of president and CEO of Lifeloc Technologies effective January 18, 2016. Dr. Willkomm has served as a director of Lifeloc since 2011. Current Lifeloc Technologies CEO Barry Knott, who has held the role of CEO since 2010, is stepping down for family reasons but will remain on the Lifeloc Technologies Board of Directors. In addition, Lifeloc Technologies president G. Ravishankar has resigned from all of his positions with the company effective December 31, 2015, to pursue other interests.

Wayne joins Lifeloc Technologies from the chemicals and materials industries, where he has worked in research and development, marketing, and managerial roles. Dr. Willkomm has served as the president of Kryptane Systems, LLC. He has also served as the president of the Tool and Molding Division of Intrex Corporation. Dr. Willkomm has led his own chemical technology consulting business advancing product development and manufacturing in areas including renewable materials and medical devices.

Said Barry Knott of the change, "I am very pleased that Wayne is assuming the reins of Lifeloc. Dr. Willkomm brings a wealth of successful product and market development experience that I believe will enable Lifeloc to continue to lead our industry in innovation, quality and customer service."

Dr. Willkomm commented, "It is an exciting time to be at Lifeloc. We are well positioned for growth and I look forward to building the business through an increasingly effective alcohol and drug detection product pipeline. I am excited to work with our employees, distributors and customers on the opportunities that lie ahead." Dr. Willkomm holds a B.S. degree in Chemical Engineering and Chemistry from Carnegie Mellon University and a Ph.D. in Chemical Engineering from the University of Minnesota. He is also an inventor on 13 patents.
