

Lifeloc PBT Recertification Program

FC10 • FC10^{Plus} • FC20

FIVE STAR
CUSTOMER CARE

ALCOHOL BREATH TESTING HAS NEVER BEEN THIS EASY

Instrument recertification is an easy way to keep your FC Series breath alcohol testers in new condition and at the same time provide documentation to support the integrity of your program.

With one simple step, your instrument will perform like new while adding the latest look, newest features and a one-year factory warranty!

At Lifeloc we manufacture premium quality breath alcohol testers. We also provide the service and support to ensure that the foundation of your breath alcohol testing program is rock solid.

Included in this program:

- Comprehensive fuel cell evaluation
- Upgrade your older grey case unit with a new pewter and black case including new updated buttons, lens and wrist strap
- Upgrade your old pump to our new improved electronically controlled design
- Upgrade software incorporating new features and functionality including:
 - Improved pump control
 - Add new "Precise Volume" test mode
 - Improved RF protection
- Perform a complete Factory Diagnostic Check ensuring the unit meets stringent factory requirements
- Perform any other needed repairs at no additional cost*
- Include a recertification certificate for your records
- Provide a one-year factory warranty from date of recertification

Special Pricing on Factory Recertification
FC10 or FC10^{Plus} only \$189.00
FC20 only \$219.00

To order call 800.722.4872 and a technician will assist you or email your contact information and company name to service@lifeloc.com. Please include the model and serial number of your FC.
