

Lifeloc Technologies to Distribute Complete Line of Drug Testing Products

DENVER, COLORADO (PRWIRE – January 31, 2011)- Lifeloc Technologies (www.lifloc.com), the leading manufacturer of professional breath alcohol testers (breathalyzers) for Workplace testing announced the distribution of a complete line of drug screening products.

“Alcohol and Drug testing supplies are a natural purchasing combination,” said Kelly Silverman, Lifeloc product manager. “Consolidating vendors, reducing purchase orders and saving on freight costs just makes good business sense. Lifeloc is the first breathalyzer manufacturer to offer one stop shopping for both breath testing and drug testing supplies.”

Lifeloc’s alcohol testing customers will enjoy a full range of FDA approved products and supplies in various configurations that will satisfy the requirements of every market. The robust product offering includes both urine and oral fluid testing products including collection cups, onsite, instant drug of abuse cups, dip cards, adulteration strips, multi panel saliva testers and a vast array of supplies.

“Lifeloc has built its business on quick turnaround, quality and being easy to do business with,” said Barry Knott, president of Lifeloc. “The same will be true for this new product line. Our distributors are industry recognized drug and alcohol testing experts. Our drug screening products are American made, in-stock and ready to ship.”

Detailed information on all of the company’s products can be found at www.lifloc.com.
