

Lifeloc Technologies Earns ISO 9001:2008 Certification

(PRWeb, Denver, Colorado) – Lifeloc Technologies, Inc., a Colorado based manufacturer of professional-use breathalyzers has achieved ISO 9001:2008 certification, the latest ISO 9001 standard designation. The certification clearly demonstrates Lifeloc’s commitment to meeting globally recognized management system requirements and regulations for the design, manufacture and sale of its breath alcohol testing (breathalyzer) equipment.

Mark Lary, VP of Operations at Lifeloc commented, “Customers want to be confident that they are doing business with an organization that can meet or exceed their requirements by providing high quality products and support. ISO 9001:2008 covers all aspects of our operations from product development to sales and support. This certification reinforces our longstanding commitment to providing our customers with the highest quality products and world-class support.”

“ISO 9001:2008 is recognized in more than 160 countries around the world,” commented Yolanda Gonzales, Lifeloc’s International Business Development Manager. “The ISO 9001:2008 certification adds to our growing list of internationally recognized quality certifications and regulatory approvals. Our international distribution partners and end-users were foremost in our minds when we elected to pursue this certification.”

International Standards Organization

The International Organization for Standards (ISO) is the largest standards organization in the world, with a network of standards institutes from 162 countries. ISO 9001:2008 is an internationally recognized quality management standard. The standard focuses on defining customer quality requirements, use of data to analyze the processes, meeting applicable customer and regulatory requirements, enhancing customer satisfaction and continually improving business performance.
