

## LIFELOC TECHNOLOGIES RELEASES A NEW SECURE WIRELESS BREATH ALCOHOL TESTING SOLUTION

(PR Newswire, Denver) – Lifeloc Technologies, Inc., a Colorado based manufacturer of breath alcohol testers, announces the immediate availability of the FC20BT (Bluetooth®), a new addition to its industry leading line of Law Enforcement, Corrections and International Breath Alcohol Testing Systems.

Lifeloc's product manager Kelly Silverman commented, "Bluetooth gives users more connectivity options and peripheral choices than previously available in the industry. The FC20BT can be factory paired with Lifeloc's wireless printer and compact wireless keyboard for on-the-go productivity. Additionally, the FC20BT is interoperable with a range of device types, such as handheld mobile computers."

Benefits of the new the FC20BT wireless system include greater ease of testing, improved mobility, and extended ROI on current wireless system devices.

"Lifeloc pioneered wireless breath alcohol testing in the DOT regulated workplace market with our Phoenix 6.0BT solution. Adoption was immediate," says John Rhoades, Lifeloc marketing manager. "Our international Law Enforcement customers are already choosing Bluetooth® to leap-frog the traditional tethered Portable Breath Tester (PBT) to printer approach."

The FC20 has been DOT/NHTSA approved since 2000 and is in use by Law Enforcement worldwide. Other advanced features include a full sized platinum fuel cell

for long device life, onboard passive and direct subject testing, multiple language capability and extensive test memory and download capabilities.
