

## Lifeloc Reports Third Quarter 2017 Results

November 16, 2017 05:02 PM Eastern Standard Time

WHITE RIDGE, Colo.--(BUSINESS WIRE)--Lifeloc Technologies Inc. (LCTC), a global leader in the development and manufacturing of breath alcohol testing devices, has announced financial results for its third quarter of 2017 that ended September 30, 2017.

The Company posted quarterly net revenue of \$2.00 million for a quarterly net income of \$190, or \$0.00 per diluted share. These results compare to net revenue of \$2.03 million for a quarterly gain of \$91 thousand, or \$0.04 per diluted share, in the year-ago quarter. Gross margin on products was 45% in the 2017 third quarter and 48% in the 2016 third quarter. Gross margin on net revenue was lower in the current quarter as a result of product mix, decreased sales volume, lower royalties and costs associated with the Remote Alcohol Detection and Recognition or R.A.D.A.R.® device business acquired earlier this year. R.A.D.A.R. devices are alcohol monitoring units with biometrics which can be used as a tool to supervise offenders as an alternative to incarceration.

For the nine months ending September 30, 2017 the Company posted net revenue of \$6.03 million for a nine months net income of \$146 thousand, or \$0.06 per diluted share. These results compare to net revenue of \$6.54 million for a nine months net income of \$410 thousand, or \$0.16 per diluted share, in the year-ago nine months. Gross margin on products was 46% in the first nine months of 2017 and 48% in the first nine months of 2016. Gross margin on products was lower in the current nine months as a result of product mix, decreased sales volume, lower royalties and costs associated with R.A.D.A.R. device business acquired earlier this year.

Net cash declined by \$1.06 million in the first nine months of 2017 due to investments in the business, of which the largest was the acquisition of the R.A.D.A.R. device product line, which contributed to a significant growth in both assets and inventory. Even so, total debt was reduced by \$31 thousand through regular mortgage payments.

“While we are disappointed to see any sales drop and only break even profitability, these current short-term results are reflective of our strategic plan to invest significantly in the growth of the business and directing those resources to focus on transformative technologies rather than line extensions,” said CEO Dr. Wayne Willkomm. “There have been few incremental product line extensions released in the last 12 months to contribute to short-term sales. Instead we look to the future for some significant product launches. We expect to introduce a completely new breathalyzer with the features that customers have been seeking. Likewise, we expect to reintroduce the R.A.D.A.R. device with better communications and a more robust mechanical design, improving service life. Development work continues on the real time, quantitative analysis for a panel of drugs including THC utilizing the SpinDx™ technology licensed from Sandia Corporation and the closely related THC breathalyzer. This work has demonstrated the detection of very low quantities of THC, but more work is needed to reduce this to a practical device. The Lifeloc commitment to innovation remains as strong as ever.”

### About Lifeloc Technologies

Lifeloc Technologies, Inc. (OTC:LCTC) is a trusted U.S. manufacturer of evidential breath alcohol testers and related training and supplies for Workplace, Law Enforcement, Corrections and International customers. Lifeloc stock trades over-the-counter under the symbol LCTC. We are a fully reporting Company with our SEC filings available on our web site, <http://www.lifeloc.com>.
